Examiner's Statement of Reasons for Allowance

1. Claims 1-5 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claim 1:

The present invention is directed to a card device including an antenna feed terminal.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art does not anticipate, nor does it suggest, the details that are claimed in the independent claims. Particularly when the claims are interpreted as argued by applicant on page 6. These details are the same as disclosed in applicant's specification. These details, as now interpreted by the examiner in view of the applicant's remarks, that are not shown in the prior art include the support including an antenna rotating shaft comprising a conductive material on a base end of the antenna from the outside into the inside of the card case in a direction along the a surface of the circuit board the antenna rotating shaft extending through the through-hole formed in the side wall of the card case; a part for supporting the antenna rotating shaft positioned on an inner wall surface of the card case such that an inner portion of the antenna rotating shaft which is inside of the card case is supported within the card case in such a manner that the inner portion of the antenna rotating shaft is apart from the circuit board and is freely rotatable.

Claims 2-5 are allowed for depending on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
